VISHESH KHANNA

Software Engineer |Full-Stack Developer (React.js/Node.js)

Ghitorni, South Delhi | +91-9528046064 | visheshkhanna2345@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science graduate (COER, 2026) building full-stack web applications with React.js, Node.js, Express.js, and MongoDB. Experienced in REST APIs, JWT authentication, and RBAC — frontend-leaning, comfortable across the stack. Seeking Software Engineer / Full-Stack Developer roles.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), Python, HTML5, CSS3
- **Frontend:** React.js, Responsive Web Design, DOM Manipulation, REST API Integration
- **Backend:** Node.js, Express.js, REST API Development, JWT Authentication, Role-Based Access Control (RBAC)
- **Databases:** MongoDB, MySQL
- **Tools & Practices:** Git, GitHub, Postman, npm, VS Code, IntelliJ IDEA, RESTful Services, OOPs
- **Other Libraries:** OpenCV, CustomTkinter

PROJECTS

LibVerse – Smart Library Management System | React.js, Node.js, Express.js, MongoDB, JWT | GitHub

- Architected a full-stack Library Management System (React.js, Node.js, Express.js, MongoDB) with **Role-Based Access Control (RBAC)** and custom **JWT authentication middleware**, securing 50+ features across Student, Librarian, and Super Admin portals.
- Built a book management module supporting 45+ books with complete **CRUD operations**, **REST API integrations**, advanced search and filtering, wishlists, and issue/return workflows.
- Implemented secure REST endpoints with **JWT-based authorization**, profile management via image upload/processing (**Multer**, **Sharp**), and interactive analytics dashboards (3D Bar, Spline, Doughnut charts, KPI cards) rendering 1,000+ simulated records.
- Designed a fully responsive, dark-themed React UI using custom **React hooks** and reusable components, cutting duplicate UI code by 40% and improving maintainability.

QR Code Studio v2 | Python, OpenCV, Pyzbar, CustomTkinter | GitHub

- Architected a modular Python desktop application (15+ files, 10+ reusable UI components) using **object-oriented design** to decouple UI logic from QR generation and scanning modules.
- Built a customizable QR generation module with logo embedding, color customization, live preview, and image export, alongside a real-time QR scanner using **OpenCV** and **Pyzbar**.
- Designed a centralized **theme management system** with 4 built-in themes, enabling runtime theme switching through reusable UI components.

EDUCATION

College of Engineering Roorkee(COER) **September 2022 - July 2026**

(Bachelor of Technology in Computer Science)

Relevant Coursework: Data Structures and Algorithms(DSA), Operating Systems, Database Management Systems (DBMS)

Problem Solving: 80+ DSA problems solved across LeetCode and NeetCode

CERTIFICATIONS

- IBM Generative AI Fundamentals – IBM / Coursera (2024)
- JPMorgan Chase Software Engineering Virtual Experience – Forage (2024)
- Deloitte Technology Job Simulation – Forage (2025)

LEADERSHIP & VOLUNTEER EXPERIENCE

- Core Member, Praharsh (College Social Welfare Club) : Organized campus blood donation and clothing donation drives for underprivileged communities.
- Volunteer, Unnat Bharat Abhiyan (UBA) Committee : Conducted village outreach — distributed plants and school supplies to rural students.
